Alpine x Vekta Material Handling

"Bringing together industry leading expertise"

Alpine Linear Saw 5.0

Vekta PackFeeder

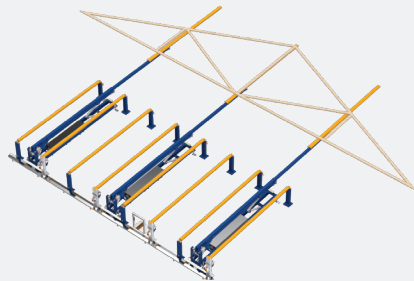

## Alpine x Vekta USA Integrated Material Handling Solutions

Alpine, an ITW Company, and Vekta USA have partnered to provide customers with a broader range of integrated material handling solutions designed to improve productivity and efficiency along with safety in component manufacturing.

Vekta USA is a leader in automation for timber truss and frame manufacturing. Together, Alpine's equipment expertise and Vekta's innovative material handling technology are delivering smarter, more connected manufacturing solutions.

### Featured Solutions

- / Vekta PackFeeder
- / Direct Delivery System
- / StakPro Frame
- / StakPro Truss

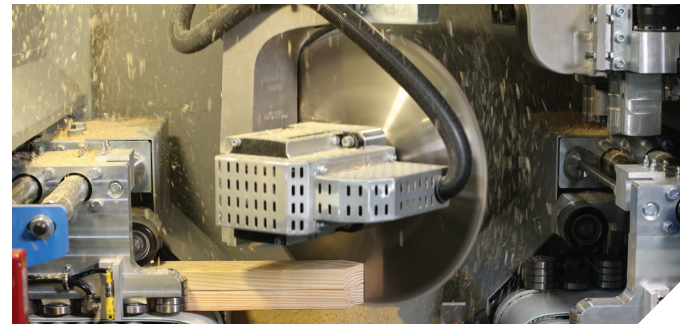

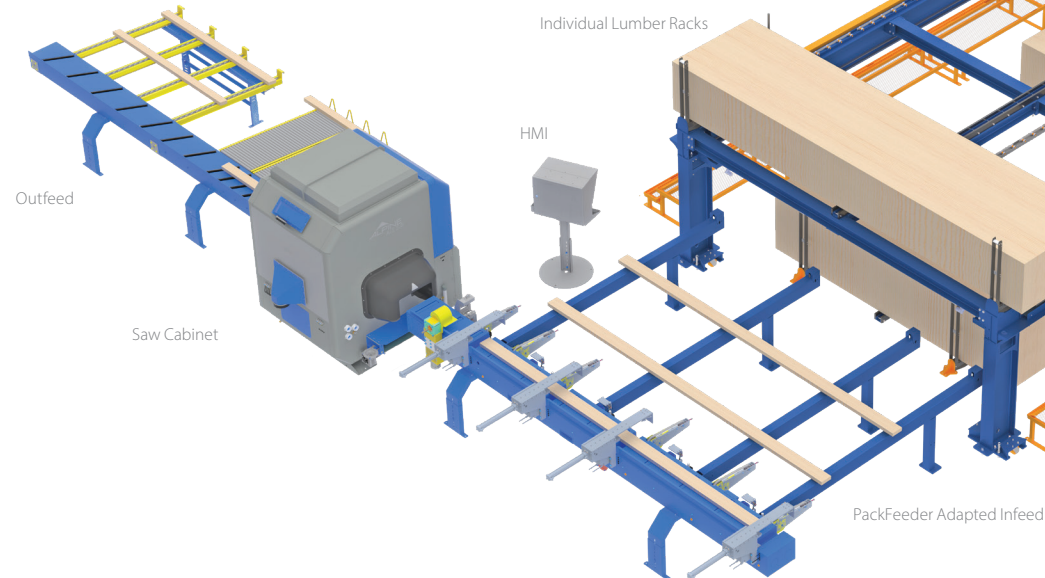

Together, Alpine and Vekta are helping manufacturers:

-  Increase productivity
-  Improve material flow
-  Enhance workplace safety
-  More efficient manufacturing

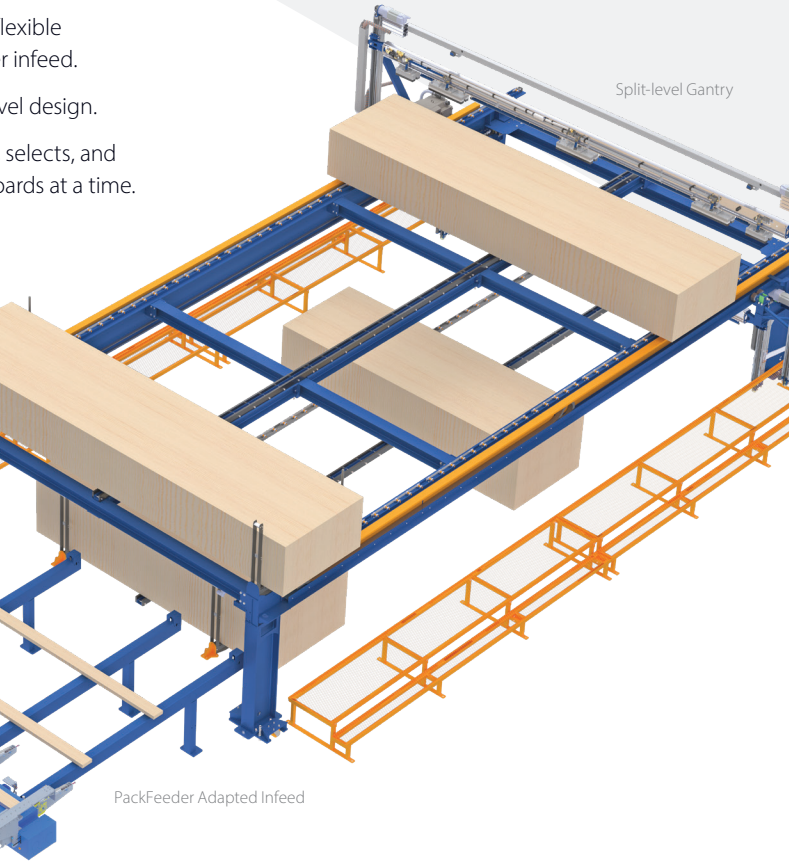

### Alpine Linear Saw 5.0

- / Engineered to maximize throughput.
- / Equipped with a small parts handler and high-resolution printing to optimize truss assembly.
- / Accurate cutting up to 1/16 of an inch, reducing recuts and increasing productivity.

### Vekta PackFeeder

- / Speedy, safe and flexible automated lumber infeed.
- / Compact, dual-level design.
- / Intelligently scans, selects, and delivers up to 2 boards at a time.
